- * Combo balanced microphone input

With an built-in CD player and cassatte player, UNO Sound System expands its capabilities beyond any other system in the industry. This AC powered sound system delivers a powerful 112 dB that can reach crowds up to 2000 people. With the convenience and extended mobility of a built-in CD player/cassatte player, the UNO is great for large indoor and outdoor events such as press conferences, sports venues, graduation ceremonies, musical productions or any other settings needing powerful and clear voice or music amplification.

SPECIFICATIONS

Rated power output ----- 80 watts
Max SPL@ rated power----- 112 dB
Frequency response ----- 80Hz-15KHz
lBass/Treble control----- 8 db cut/boost@100Hz,SKHz
Line input ----- 1/4" jack, Low-Z,balanced
Mic input ----- Combo and 1/ 4" phone jack
Sensitivity for rated output
Unbalanced line ----- -14 dBV(200 mVrms)
Balanced mic ----- -52 dBV(2.5 mVrms)
Balanced input
Mic ----- -58 dBV(1.25 mVrms)
Line ----- -15 dBV(175 mVrms)
Line output(post fader) --- 1/4" jack, Low-Z,balanced
AC power requirements---
110-125 VAC,50/60HZ,120 watts max.
210-240 VAC,50/60HZ,120 watts max.
Dimensions(HWD) ----- 480X225X310mm
Weight ----- 16Kgs
Battery(two) ----- 12 Volt rechargeable,5A

Match with handheld transmitter UH-101

- * Adopting unidirectional condenser element, it creates superb isolation and unsurpassed gain-before-feedback effect, optimized for vocal and speaking performances.
- * Convenient multi-channel selector. You can choose the best frequency from the hundreds available for the best performance effect.
- * Noise absorption design eliminates external and handling noise completely.
- * Elegant steel grille provides durable protection to its own shape and element.
- * Durable structure modular design is easy for assembly and detachment, especially convenient to after-sales service.
- * Low battery consumption. Adopting two 1.5 V AA batteries, it works a longer time than expected.

Match with body-pack transmitter UB-101

- * Innovated design of the body-pack transmitter can be matched with lavalier, headset or instrument connector, providing another option besides handheld microphone; furthermore, it sets your hand free!
- * Professional TA4F connector prevents the connector from dropping Off and creating unwanted noise.
- * Low battery consumption. Adopting two 1.5 V AAA batteries, it works a longer time than expected.
