

INDOTA ST15 CHARGING STORAGE LOCKER

The **Indota ST15** storage locker is designed to individually store, charge and secure Chromebooks, Tablets, Laptops, iPad devices or any other electronic device. The bring your own device (BOYD) charging storage locker is versatile and delivers a one-to-one storage and charging solution.

Benefits:

Safe and Secure: Individual lockable cells are designed to store and secure valuable mobile electronic devices. Each cell can be individually locked with a key or is also available with a key card locking system.

Secure charging: Create a secure charging facility in just about any environment. Perfect setup for schools, universities, convention centres or anywhere electronic devices are used.

Charge almost any device: Each compartment is fully equipped with a mains power supply outlet as well as two USB charging ports.

Completely Expandable: The **Indota ST15** storage locker is expandable for your individual needs. You can have anywhere from 8—50 bays.
